

alternative grades

I do not recommend a GP grade, as that gives students a year to make up the work and they often forget. A better alternative would be an I grade, which gives the student two extra weeks. If the work is not completed in those two weeks and a new grade is not submitted, it turns into an F grade. However, an I grade is only to be used in extreme circumstances where a student has extenuating circumstances (eg. medical, family issue, etc.). If you think an I grade is warranted, you can issue it, although you will also need to submit a last date of attendance with that grade, which would be the date of the student's last submission.
